

At Perdue, we understand that
the way you work is almost
as important as the work you
do. So we provide innovative
solutions to help you focus,
collaborate, learn, and socialize
with greater productivity.

ABOUT US

Our value is based on our service to individual organizations like yours.

A RICH HISTORY OF HELPING CLIENTS WORK BETTER.

Perdue Office Interiors, a Suddath Company, has provided innovative workplace solutions for organizations ranging from start-up entrepreneurs to Fortune 500 companies since 1916. As the exclusive Steelcase dealer in the region, Perdue provides products and turnkey services you won't find anywhere else in North Florida.

In 2018, Perdue merged with The Suddath Companies, a moving and relocation powerhouse, to give customers an expanded menu of services backed with the same quality and service they've come to expect for over 100 years. Merging the two Jacksonville based, century-old brands offers customers a complete solution to plan, furnish, relocate and support their ongoing commercial moving needs.

With a goal of helping organizations enhance their performance by providing the best integrated workplace solutions, Perdue creates effective workplaces for clients in diverse industries. Our solutions tailor environments to the way you work. This means you get a partner that provides services that effectively and efficiently apply the right products to YOUR work environment.

Perdue is proud to be part of the growing downtown Jacksonville community, with its corporate office located on West Forsyth Street. In addition to our downtown Jacksonville location, we have a 40,000 square foot warehouse and operations facility. Perdue also has an office in Tallahassee, FL, and the Capital City Market in order to better serve clients across North Florida.

Perdue's Downtown Jacksonville location in the historic Woolworth Building built in 1916, the same year Perdue was founded

ABOUT US

Ways we help you work

SERVICE FOR EVERY STEP

No matter the size of your project, we're here to provide support from your initial Customer Needs Analysis to the final installation of your solutions.

RECONFIGURATION, MAINTENANCE AND ONGOING

If you're reconfiguring your workspace, we're available to help you with the planning and implementation. We also have an industry leading service request system, Portal, that easily integrates with your current system to support any moves, adds, changes (MAC) to your existing space and furnishings. As ongoing support to your new setup, we can execute internal employee moves, furniture repairs, ergonomic adjustments, computer moves, new hire set ups and a multitude of other facility support needs.

ASSET MANAGEMENT, STORAGE AND DELIVERY

If you have multiple locations, let us be your ongoing partner for computerized tacking, storage and immediate retrieval and delivery of furnishings and systems nationwide. We make sure your products are clean upon retrieval. You can also feel confident knowing inventory reports are available at your request.

INSTALLATION & MOVE MANAGEMENT

Office moves should happen on time and on budget. We have the experience and cutting-edge technology to quickly get you from your existing office and into your new location. During the move process, our award-winning tracking technology, Tracker, enables you to monitor progress, inventory flow and compliance in real time. Plus, we'll also help you with moving supplies, disconnect and reconnect of computers, installation of artwork and furniture, as well as offer settling in support from our trained professionals.

REFURBISHING/REUSE SERVICES

• Reupholstering • Restoration/Repair • Painting • Cleaning & Protection • Furniture Donation

With your facility plan as our guide, we'll provide you with solutions that may include enhancing your existing assets. Refurbishing can save exponentially when compared to new furniture.

SURPLUS ASSET PLANNING AND DECOMMISSIONING

With the complexity of a move, it is easy to overlook decommissioning your old space. We provide the labor, equipment and transportation you need to meet your deadlines, as well as find outlets to resell, recycle, donate or properly dispose of surplus assets, confidential documents and data equipment often found in vacated spaces.
